

## **Moov Message Cream**

Moov Massage Cream has been developed for the effective treatment of:

- Muscular stiffness (muscular Infections)  
Ligament tear or rapture
- Bruises
- Sports injuries
- Rheumatism
- Sprained knee injuries

### ***Administration***

A little amount of cream is spread on the painful area and rubbed gently for 5-10 minutes until the pain disappears. This process could be repeated if required. Those who practice sports can use Moov cream before and after training to help with muscle relaxation.
