

## **Prostanorm**

Eva Pharma recommends Prostanorm capsules as the main treatment option for BPH. Prostanorm acts as an anti-inflammatory agent and helps reduce the amount of urine that remains in the urinary bladder. Prostanorm contains a unique combination of active ingredients (zinc, saw palmetto extract, pygeum extract, stinging nettle extract) that have been used extensively across the globe to treat urinary symptoms. Prostanorm can be used safely in combination with other medications.

### ***Dosage***

Take one Prostanorm capsule daily.
